

My favorite cartoon

I am going to speak about my favorite cartoon by Walt Disney. As for me, I like almost all cartoons created by Walt Disney. But one of my favorite ones is called «Cinderella». Almost every child knows this film shot in 1949. It was made on the basis of the fairy tale «Cinderella» by Charles Perrault.

This cartoon shows us a magic story Cinderella, a young girl, who lived in sorrow and sadness. She was unhappy, because her evil stepmother and stepsisters treated her badly. But one day a miracle happened in her life. She met a fairy mother, who helped her.

Using the power of magic she gave Cinderella a luxury coach, a wonderful dress and unusual shoes. Cinderella was the most beautiful girl on the ball and the Prince fell in love with her. Soon they married.

This cartoon is full of special effects and magic music. I think it is interesting for children and adults too. Cinderella is a symbol of kindness and tenderness.

In conclusion I can say that this cartoon is a good motivation for everyone. It teaches us to believe in magic and fairytales. I am sure I will watch this cartoon again and again.
