

## Mickey Mouse

I want to tell you about my favorite cartoon character.

In my opinion Walt Disney Company is one of the most famous in the world. Disney Land is especially popular. It is a great place for adults and children. About 100 thousand people visit it every day. They come from different parts of the planet to see their favorite characters.

I like Mickey Mouse most of all. It is a wonderful character, whose life is easy and full of fun. I saw this cartoon for the first time when I was very young. Much time has passed, but I still love to watch this cartoon. As for Mickey he is a small black mouse, who is always in a good mood. He is wearing red shorts and yellow shoes. In fact my favourite character is popular in different countries.

In conclusion I'd like to say, that Walt Disney Corporation has a lot of excellent characters and cartoons, but my favorite character "Mickey" will remain in my heart forever because he taught me to be cheerful!
