

## My favourite cartoon

Walt Disney was born in 1901. In 1924 he presented his first cartoon and created The Walt Disney Company. His cartoons made him famous all over the world.

As for my favorite cartoon it is certainly “Mickey Mouse”. It tells us about adventures of a mouse and his friends. An anthropomorphic mouse who usually wears red shorts, large yellow shoes, and white gloves, Mickey has become one of the world's most recognizable characters. He always appears with his friends: Goofy and Pluto. There are a lot of funny moments in the film when people can smile and laugh while watching this cartoon.

I'd like to mention that it's a family cartoon. It's full of music and sounds. The graphic is very simple but good. It was very hard to make cartoons in the time when there were no computers and CG and people spent a lot of time to make a very small movie.

There are a lot of good cartoons which were made by Walt Disney and his company - Dambo, Bembie, Pinocchio and seven gnomes conquered the hearts of viewers.

Walt Disney Studio made very good cartoons which are popular today.
